### About the course

The objective of this study day is to deliver an informative and educational programme for ante-natal ultrasound practitioners of all experiences. Canon Medical Systems is proud to offer free and accredited CPD for the professional healthcare worker with an interest in obstetric ultrasound. The programme will review current practices from a clinical perspective and also a holistic approach to the sensitive nature of day-to-day scanning.

Please note this event will take place subject to Government guidance: this may mean that the event is postponed at short notice.
